"Jara Pascual, with colleague Celia Avila-Rauch, has been able to distill and apply the ability model of emotional intelligence to the art and science of innovation and innovation leadership. In our work we note that feelings are not always facts but that emotions as a form of data. More than that, emotions can assist or facilitate with decision making, creativity and innovation rather than getting in the way, but only if leaders are "smart" about emotions and develop and deploy their emotional intelligence skills."
